

**WATERWORKS DISTRICT #3
P.O. BOX 366
RUSTON, LA 71270
318-251-0853**

Dear Valued Customer,

Waterworks District #3 has a cellular read system. If the meter or its components are damaged in anyway, the customer will be charged a minimum of \$250 for replacement meter. One-inch meters will be charged a minimum of \$430. The fee will need to be paid before a new one is installed and water service is restored.

We suggest that each customer have a shut-off valve between the meter and the house/business so that there will be no need to remove the lid from the meter. Should the customer have to remove the lid, do not unplug wires. Meters notify us if the meter has been tampered with or is not working properly. Keep the area around the meter clean. If you notice that something is wrong with the lid or around the meter, please contact our office so that it can be checked.

We now offer a way to monitor your water usage electronically. You can visit www.eyeonwater.com. (Instructions on back)

We appreciate the opportunity to serve our customers. If you have any questions regarding this matter, you may call our office at 318-251-0853.

Sincerely,

Waterworks District #3

Welcome to EyeOnWater!

Now you can view your water usage in a few easy steps:

1. Visit <https://eyeonwater.com> on your computer using a supported web browser. (You can also download the **EyeOnWater** app supported by Badger Meter, Inc. for your smart phone.)
2. Click on the **Create Account** link.
3. Enter your service area zip code.
4. Enter your billing account number.
5. Enter your email address.
6. Create and confirm a password.
7. You will get a confirmation email from Beacon. You must verify your email address by clicking on this link. Once you do, you can sign in using your email and password.
